About Me

Driven and detail-oriented Computer Science undergraduate specializing in software development, artificial intelligence, machine learning, and cloud technologies. Proficient in Java, Python with a robust command of data structures, algorithms, and real-world problem-solving. Demonstrates leadership and initiative as a GSSoC Campus Ambassador, excelling in collaborative and fast-paced environments. Recognized for innovative projects in AI-powered health management, real-time face detection, and interactive mock interview platforms. Committed to continuous learning and passionate about leveraging technology to deliver impactful, user-centric solutions.

Education

GLA University, Mathura

Aug 2022 – Aug 2026

Bachelor of Technology in Computer Science and Engineering (Honors)

- CPI: 7.96
- **Coursework:** Data Structures and Algorithms, Web Technologies, Machine Learning, Deep Learning, NLP, Cloud Computing, DevOps, Database Management Systems.

Little Scholar's Academy, Amroha – Class 12 (CBSE)

2022

- Percentage: 89.6
- **Coursework:** Physics, Chemistry, Mathematics, English, Hindi, Physical Education

St. Mary's Convent Sr. Sec School, Gajraula – Class 10 (CBSE)

2020

- Percentage: 90.2
- **Coursework:** Physics, Chemistry, Mathematics, Biology, Social Studies, Hindi, English, Computer

Internship / Training Experience

W3grads

Mathura, India

Job Oriented Value Added Course

June 2024 – July 2024

- Completed a rigorous 45-day, job-oriented course on Data Structures.
- Gained hands-on experience implementing data structures and optimizing algorithms for real-world applications.
- Enhanced understanding of core computer science concepts applicable to both technical interviews and practical projects.

Projects

AI Mock Interview Platform

[Project Github Repo](#) 

- Created an interactive AI-powered mock interview platform using Next.js, Google Gemini API, and Firebase.
- Enabled voice input from users, generating dynamic interview questions and personalized feedback.
- Integrated VAPI as an AI voice assistant for lifelike interactions, and utilized JavaScript/CSS animations for a user-friendly experience.

WellTrack- AI Powered Health Management Tool

- Developed a generative AI platform for holistic health monitoring, allowing users to track sleep, dietary habits, and exercise in real time.
- Engineered digital health cards, streamlining medical record sharing between users and healthcare professionals.
- Implemented robust authentication via JWT, Google, and GitHub logins to ensure secure and convenient access.

- Deployed the solution using Next.js, TypeScript, MongoDB, and integrated the Gemini API for enhanced AI-driven recommendations.

Real Time Face Detection

- Designed and fine-tuned a machine learning model for precise, real-time facial recognition.
- Utilized OpenCV for face detection and leveraged Pandas, Numpy, and Seaborn for data preprocessing and visualization.
- Improved model accuracy by rigorous data cleaning and augmentation.
- Conducted thorough testing to optimize performance for live video feeds.

Achievements

- Selected as GSSoC'25 Campus Ambassador for representing and engaging fellow students in open-source initiatives.
- Certified in AI FOR WOMEN course by GUVI, showcasing commitment to promoting women in technology.
- Participant in SAWIT.ai Learnathon on Generative AI by GUVI, expanding knowledge in state-of-the-art AI technologies.
- Secured 5th position (Top 5) at INTRUSIONX hackathon (24 hours), organized by Cyberonites Club of GLA University, demonstrating quick problem-solving and teamwork.
- NPTEL Elite Certified in Organizational Behaviour: Individual Dynamics in Organization by IIT Guwahati.
- NPTEL Elite Certified in Leadership and Team Effectiveness by IIT Roorkee.
- Earned certification in SQL: A Practical Introduction for Querying Databases by Coursera.

Skills

Languages: Java, SQL, Python

Web Technologies: HTML, CSS, React.js

Data Structures and Algorithms

Databases: MongoDB, Firebase

Cloud and DevOps: AWS, Docker, Linux Basics, Cloud Computing, DevOps Practices

Artificial Intelligence and Machine Learning: Machine Learning, Deep Learning, NLP

Soft skills: Problem solving , Active Listener, Presentation Skills, Time management
