Education

GLA University, Mathura , Bachelor of Technology (Honors) - Computer Science and Engineering	2022 - 2026
• CPI: 7.93	
Little Scholars' Academy , Amroha , Class XII (CBSE)	2022
• Percentage: 89.6	
St. Mary's Convent Sr. Sec. School , Gajraula , Class X (CBSE)	2020
• Percentage: 90.8	

Training

Job Oriented Value Added Course , W3Grads (Remote)	June 2024- July 2024
• Completed a 45-day job-oriented training program on Data Structures and Algorithms (DSA) , strengthening core computer science fundamentals.	
• Developed and tested implementations of key data structures including arrays, linked lists, stacks, queues, and trees using structured programming approaches.	

Projects

Intellecto– AI-powered mock interview platform

- Developed a **Generative AI-based mock interview platform** that generates role-specific interview questions and personalized feedback using AI models to help users practice technical and behavioral interviews.
- Integrated **real-time voice interaction with an AI voice assistant**, enabling natural conversational interviews and built a responsive full-stack web application for seamless user experience.
- Tech: Next.js, Firebase, Google Gemini API, VAPI, JavaScript, CSS.

WellTrack– AI-Powered Health Management Platform

- Developed an **AI-powered health management platform** enabling users to track **sleep patterns, dietary intake, and exercise activities in real time**, providing AI-driven insights for holistic health monitoring.
- Implemented **secure digital health cards for medical record management and sharing**, and built a scalable full-stack system with authentication and database integration for efficient health data tracking.
- Tech: Next.js, TypeScript, MongoDB, Google Gemini API, JWT Authentication .

SmartLearn- AI-Based Smart Learning & Skill Recommendation Platform (In Progress)

- Developed an AI-driven platform that performs **resume analysis, skill extraction, and skill-gap detection using Machine Learning and NLP models** to recommend personalized courses and adaptive learning paths.
- Built a **full-stack web application** with secure user authentication and scalable data management, enabling dynamic skill assessment, personalized recommendations, and continuous learning progress tracking.
- Tech: Next.js, TypeScript, Django, MongoDB, Machine Learning, NLP techniques

Technologies

Languages: Python, SQL, JAVA

Frameworks/Tools: Django, Docker, GITHUB, MySQL, SQLite, Firebase

Web Technologies: HTML, CSS, React.js

AI/ML: Machine Learning, Deep learning, Natural Language Processing, Neural Networks

Certifications

- AI FOR WOMENCertified– GUVI
- Participant in SAWIT.ai Learnathon on Generative AI by GUVI.
- 5th Place (Top 5), INTRUSIONX Hackathon, Cyberonites Club, GLA University
- NPTEL Elite Certified: Organizational Behaviour (IIT Guwahati) , Leadership and Team Effectiveness (IIT Roorkee) .
- SQL (A practical introduction for querying databases) Certificate– Coursera
