Education

GLA University, Mathura

Bachelor of Computer Application : CPI: 6.72

Aug 2023 – Aug 2026

Experience

Internship Studio

Graphic Designing Training

Mathura , India

August 2024

- Completed hands-on training in graphic design with a focus on Illustrator, layout composition, vector illustration and color theory. Worked closely with mentors to translate creative briefs into professional assets , applying user-centered designs and visual hierarchy principles. The program lead the foundation for real-world application during the internship.

Internship Studio

Graphic Designing Internship

Mathura , India

August 2024

- Applied advanced illustrator techniques to craft high quality visual assets aligned with modern design principles. Participated in regular feedback sessions with mentors and peers to refine design style, layout and storytelling impact. Strengthen ability to interpret client briefs, adhere to brand guidelines, and meet deadlines in a fast paced, design focused environment. Gained hands-on exposure to the creative workflow from ideation to delivery, while cultivating attention in detail and visual storytelling skills.

Projects

AI Mock Interview Platform

- Created an interactive AI-powered mock interview platform using **Next.js, Google Gemini API, and Firebase**.
- Enabled voice input from users, generating dynamic interview questions and personalized feedback.
- Integrated **VAPI as an AI voice assistant** for lifelike interactions, and utilized **JavaScript/CSS animations** for a user-friendly experience.

Blood Donation Portal

- Allow users to register as donor or request blood through a streamlined platform
- Enabled admin panel for managing the donation request and donor records
- **Tech stack - HTML, CSS, JavaScript, PHP, JWT authentication**

Certificates / Achievements

- Participated in ENTREPHOBIA organized by SPARKL TBI by E-Cell GLAU
- Getting started with MongoDB Atlas Course - Certified
- Participated in Coding competition by BCA-O-CRATES Club
- Certified in completing the Microsoft Learn Challenge- mastering 15 modules covering cloud computing and github
- Certified in Master Microsoft Excel - Excel from beginner to advance course by Udemy
- Certified in Excel for beginners course by Great Learning Academy

Skills

Programming Languages: Java

Web Technologies: HTML, CSS

Core subjects: Data Structures and Algorithms, Operating System, Computer Networks

Databases: MongoDB
